

OVERVIEW OF WEAPONS AND MUNITION PORTFOLIO

Weapons and munitions play a crucial role in modern warfare, enabling military forces to achieve their objectives and protect national interests. These tools encompass a wide range of equipment designed to inflict damage, destroy targets, and neutralize threats.

The Small Arms category includes rifles, pistols, submachine guns, and shotguns, typically used by individual soldiers or small units for close to medium-range engagements.

Artillery comprises large-caliber guns, howitzers, mortars, and rocket launchers capable of delivering indirect fire over long distances. Artillery systems can provide fire support, suppress enemy positions, and engage targets with precision-guided munitions.

PROJECT CASE STUDY ON WEAPONS AND MUNITION (EUROPE)

We had a consulting engagement with a South African arms manufacturer to identify the market size of grenades and practice grenades across NATO and EU nations. The study included the accumulation of legacy procurement contracts and forecasts for 5 years.

DEFENSE DECISION DASHBOARD

- 10 Year Market Forecast
- Segmented Market Forecast
- 19 Country Level Forecast
- Market Trends
- Scenario Analysis
- Opportunity Analysis
- Procurement Data
- Technology Impact Assessment
- Impact on Supply chain
- Program Updates
- Company SWOT
- News
- Company Wise Product Offering

KEY TECHNOLOGIES IN WEAPONS AND MUNITION

- **Guidance Systems**
- **Smart Munitions**
- **Stealth Technology**
- **Directed Energy Weapons (DEWs)**
- **Precision Strike Capabilities**
- **Advanced Materials**
- **Miniaturization**
- **Enhanced Lethality**
- **Remote Sensing and Targeting**
- **Networked Warfare**

OUR OFFERINGS

A&D Market Reports is one of the pioneers in Aerospace and Defense Market Intelligence in the world. We have worked with Global and Indian Aerospace and Defense companies in areas of strategy building, new market identification, product feasibility study and Global Partner identification. Our team of experts comes with an average of 3 decades of experience in their specific program areas. The following are our core offerings:

Market Intelligence Reports

Client specific Consulting Engagements

Defense Decision Dashboard

5 Year Strategy Plan
